

**HERCULES**  
COMPLETE LIFTING SOLUTIONS

# HELPFUL S

The Helpful S is an electric transporter with handlebar steering, with a work capacity of over 8 hours, suitable for moving and loading up to 400Kg. The two front traction tractor wheels of 430mm and one rear pivot wheel of 330mm with oscillation arm, allow good balance and grip, making it ideal for transporting goods on uneven surfaces.

The Helpful S is very handy and suitable for use in factory plants, warehouse storage, and in any other material movement operation. It is easy to use and increases efficiency. The Helpful S is built using innovative technical solutions and excellent quality material such as a steel frame, powder coated with exterior paint. It can be equipped with interchangeable skips or crates. The electronic system that controls the forward and backing speed is guided by a knob accelerator making the work easier and safe even in narrow places. The Helpful S is supplied with an extra red lever for safety which allows it to work only in the presence of assigned personnel.

SPECIFICATIONS	Helpful S
Capacity - flat surface	400kg
Capacity - on a 30% slope	300kg
Overall length	1900mm
Overall height	500mm
Overall width	785mm
Length between wheels	1000mm
Weight	125kg
Engine	800 watt/ 24 volt
Drive	Diff. in oil bath
Forward speed	max 4.5 km/h
Reverse speed	max 2 km/h
Batteries	2 x 80A 5h/ 12 volt
Battery charger	16A high frequency
Average working time	8 hours
Brakes	Built-in electro brake
