

# MTK STAIRCLIMBERS

**HERCULES**  
COMPLETE LIFTING SOLUTIONS

The MTK stairclimbers can lift 190kg or 310kg and can climb stairs at a rate of 8-18 stairs per/minute depending on the load.

The MTK range of stairclimbers have a unique braking system allowing more control when taking heavy loads up or down stairs. The braking system also comes in handy when going down a steep hill, so the load doesn't run away from you.
